Hi Ben,

I spoke with Brent Maier at the US EPA earlier today. It sounds like Brent is going to organize a conference call that will meet Rachel and my needs.

Hi David,

I just wanted to check in on this. Any time in the next few days that you might be able to hop on a conference call regarding the uic issues?

Mr. Albright,

Katharine Moore from the California Senate Natural Resources and Water Committee would like to have a conference call with you, Oil and Gas Supervisor Steve Bohlen, and myself at some point in the relatively near future to discuss the issues surrounding the Underground Injection Control Program.

She told me that she had previously asked for a call/meeting with you, but it was put off until after we submitted our letter to US EPA.

If you can participate in this call, please let me know some days and times you might be available and we can coordinate.

Thanks,

Ben
